It's true that fascism has arrived, but not in the way that's displayed here. Without context this becomes political propaganda. Propaganda is powerful and are extremely dangerous weapons that these 'activist' use to weaponize the ill informed against their ideological enemies.🧐

Orlando Magic player Jonathan Isaac stood alone for the national anthem.

This is what courage looks like. When the rest of the NBA took a knee, Isaac stood with pride for America.

Sometimes, when you stand for what is right, you must stand alone.

Take responsibility for yoursel fand instead of shrieking about systemic racism, move forward and leave the past where it belongs. Until that happens you'll continue to be oppressed and chained to the past, making you a willing slave for anyone's personal agenda in the present.

The increasing dependence on the State is anything but a healthy symptom, it means that the whole nation is in a fair way to becoming a herd of sheep, constantly relying on a shepherd to drive them into good pastures. The shepherd's staff soon becomes a rod of iron, and the shepherds turn into wolves. . . Any man who still possesses the instinct of self-preservation knows perfectly well that only a swindler would relieve him of responsibility. . .[those] who promise everything are sure to fulfil nothing, and everyone who promises too much is in danger of using evil means in order to carry out his promises. . .

I was laid off from @Vice on Friday. Now there's no one who reports on trans issues there anymore.

I worked there for 5 years and by 2020, almost all the people who had been actively investing in the development of the trans coverage that I built at Vice is gone.

To paint people who are protesting losing their jobs, businesses, and livelihood and the ability to care for themselves and their families as villains shows they have no integrity and narcissist motivations. This has gone on for 4 years now. 🧐 htwitter.com/StefanMolyneux...

Whether you like @realDonaldTrump or not, we cannot have information getting deleted by platforms infected with political bias. This is what is dividing the country. Do not underestimate the effects of this tactic on people as well as yourself.

Why wouldn't you follow a 69 page book written 3 years prior, especially one with such useful SLOGANS such as 'Ask Fact Finding Questions'?
Simple, because no two pandemics are the same, so the 'NSC Playbook" is nothing more than a journal and now used as a political Ad. 😬

He was referring to his past experiences during the 50's and 60's. For Tariq Nasheed to use this to generate outrage to garner attention in this manner reveals this content of his character. This is nothing but grandstanding on historic accomplishments! 🧐

It's surprising how effective this technique is, and the scale of it. 🧐
